JASPER

with

DMITRI

Inspired by the presence of Ivan Dmitri, nationally famous color-photographer, amateurs using standard Argus Cameras "click" professionally on their tour of Jasper National Park. In these sparkling Kodachromes they have captured brilliant color and exquisite beauty. Here is colorful, pictorial evidence of the simplicity and quality of Argus picture-making.

Model CC . . . Photo-electric exposure meter; color-corrected f:4 lens; Price **$35.50**
